Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 10, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Karageozian (5,579,201) (cited in IDS).

Karageozian discloses a system for interrupting power to peripheral devices upon the extinguishing of power to a PC (22), the PC having a central processing unit and a power supply associated therewith, and a power cord connected to the power supply for providing electrical energy to the central processing unit, the system comprising a power strip (10) having at least one unswitched and at least one switched socket, each adapted to receive a standard electrical power cord plug; means for sensing (relay power input cord 20) the presence of a low voltage signal from the personal computer; a synchronous transfer switch (18) connected to the means for sensing for selectively supplying or depriving electrical energy from an electrical energy source to the switched outlets upon the sensing of the presence or the absence, respectively, of the low voltage signal from the means for sensing; and said power cord electrically connected to one of the at least one unswitched outlets of the power strip. It is noted that Karageozian operates in response to the presence or absence of primary 110 volt AC power in the power supply cord. However, the claimed "low voltage" reads on the 110 volt AC power signal of Karageozian.

Allowable Subject Matter

3. Claim 19 is allowed.
4. Claims 2-9, 11-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

REASONS FOR ALLOWANCE

5. The following is a statement of reasons for the indication of allowable subject matter:
Claim 19 recites, inter alia, the means for sensing comprises a low voltage power tap which includes a cable for electrically connecting the synchronous transfer switch with a female DIN socket associated with the personal computer and with a female USB connector associated with the personal computer.

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include either of the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
